

Application to self lay a water main and service connections

Getting a water main for your new development

Water for the North West

This application form should be used if you are thinking of using a self lay provider (SLP) to provide a new water main and service connections under S51A of the Water Industry Act 1991. If you would like costings from UUW for this work, please complete an "Application for a new water main (requisition)" which is available on request or on our website unitedutilities.com

For self lay enquiries up to 500 domestic dwellings, we aim to issue a reply within 14 calendar days of receiving your complete application. For larger enquiries, or if we may need additional time to consider your enquiry.

Once completed please return this form, by e-mail to selflay@uuplc.c.uk, or by post to United Utilities Water, Developer Services, Grasmere House, Lingley Mere, Warrington WA5 3LP. If you need help or assistance please call us on **0345 072 6067**.

Metering Arrangements, please don't forget to include preferred meter locations on your plans

For individual dwellings with 25mm connections our policy is to use a 15mm above ground meter fitted with Automated Meter Reading (AMR). We offer three locations for our meter: internally located in the dwelling, in a wall mounted enclosure attached to the dwelling or within an in-wall enclosure.

For multi-occupancy domestic properties with non-standard connections, such as blocks of apartments, we also use above ground Automated Meter Reading (AMR). The meters can be installed internally within each flat, in a lockable cupboard positioned on the ground floor, or in a lockable cupboard on each floor of the building

Section 9 Sewer Connections and water reuse

Section 10 Infrastructure Charges Discount Scheme - Promoting Sustainable Development

Clean Water Properties fitted with water efficient fittings and appliances which the water use in a property will be 100 litres or less per person, per day, may be eligible for a reduced rate on the water infrastructure charges.

Are you planning to build any plots on your site whose water fittings are designed to use less than 100 litres or less of water per person per day? Yes No

If yes, please provide plot numbers of all plots with water fittings designed to use less than 100 litres or less of water per person per day.

In order to access the infrastructure charges discount please provide evidence by way of a certificate from: <https://wrcuucalculator.co.uk>. This needs to be completed for each house type on your build.

Wastewater - Where you can demonstrate that properties are built that no surface water drainage will enter the United Utilities public sewer system may be eligible for a reduced rate on the wastewater infrastructure charges.

Are you planning to build any plots on your site whose surface water drainage will not enter a UU asset? Yes No

If yes, please provide plot numbers of all plots whose surface water drainage will not enter a UU asset:

Please provide a drainage layout plan as way of evidence along with your application.

Please note that United Utilities are able to audit each application to ensure the qualifying criteria is met and the correct infrastructure payment is made.

Section 11 Water re-use systems

Will there be any water re-use systems on the site? Yes No
If yes, please attach details of the proposals and a list of those plots that will use this facility

Tip: We support the use of water saving and water reuse systems, these systems must be correctly designed and installed to ensure that drinking water cannot be contaminated. So that we can be sure that your system will be safe to connect, we will need to understand how the equipment will be connected to the public water supply, together with details such as back flow protection and isolation provisions.
