Water for the North West

A new way of managing your water bills

We know that not all everyone is lucky enough to be paid regularly which can make it difficult to commit to a traditional Direct Debit each month. Some people would rather have more control over the amounts they pay and

when, so it better reflects their particular circumstances. That's why we're introducing a totally new way of keeping on top of your water bills.

Our **PayAsUGo** scheme is ideal for those customers who:

Want more control over the amounts they pay

Would like the flexibility of paying whenever they wish

Are comfortable making payments on our app or online

Payments that suit you, not us

Our **PayAsUGo** scheme opens the door to a much more flexible approach to paying your water bill. Now, instead of paying the same amount on the same day every month, you have the option to make different payment amounts whenever you wish to suit your specific circumstances:

Just been paid today?

It's a good opportunity to make a larger payment.

Paid weekly?

Good opportunity to make payments once a week.

Not being paid for another two weeks?

Just make a small payment to keep you ticking over until payday.

Finally, a way to pay your water bill which fits around your life!

How it works

It's simple really.

Every three months we'll set you a payment target – you can then spread your payments over the 12 weeks to make sure you meet that target. Don't worry, we'll send you regular reminders so that you're always up-to-date on what you've paid and how much you still need to pay to achieve your target so that you don't fall behind.
