

Temporary road closure on Norley Road while we're working in your area

We do understand that roadworks can be inconvenient and we always aim to minimise disruption as much as possible while our teams are carrying out work. We wanted to make you aware of improvement work that we're carrying out on our big water pipes in the Norley area which will require a temporary road closure on a section of Norley Road at the crossroads approach with Beech Lane and Forest Lane.

Why does the road need to be closed?

We need to temporarily close a section of Norley Road from Monday 5 May 2025 until Friday 18 July 2025 so that the work can be carried out safely. A signed diversion will be in place to help direct vehicles around our working area. You may not always see us at the working area as we're also working at other locations too.

Thank you, we really appreciate your patience and understanding as we carry out this important activity to modernise our water pipe network. We provide regular roadwork information and updates at unitedutilities.com/vamp-live-updates. If you have a smartphone or mobile device you can simply scan the QR code.
